CAN OUR SPORTING INFRASTRUCTURE SUPPORT HIGH PERFORMANCE AND TARGET THE INACTIVE?

ORGANIZER:
IAKS – INTERNATIONAL ASSOCIATION FOR SPORTS AND LEISURE FACILITIES
INFO@IAKS.SPORT
WWW.IAKS.SPORT

SPORTING INFRASTRUCTURE

Moderators:

Tom Jones, Senior Principal, Populous
Mike Hall, Partner, FaulknerBrowns

Panellists (in order of appearance):

Paul Buxton, Performance Policy Consultant, UK Sport
Shaun Dawson, Chief Executive, Lee Valley Regional Park Authority
Cathy Gallagher, Executive Director of Sport, University of Stirling; Chair, BUCS Senior Managers Network
Jo Simpson, Commercial and Sports Facilities Director, Loughborough University

Following on from the success of Team GB at the recent Olympic and Paralympic Games, this webinar brings together representatives from the UK sports sector who are involved in the development of elite athletes, to ask how sporting infrastructure can support high performance, as well as targeting the inactive parts of the population.

- *How can public funding be directed to optimise performance at all levels?*
- *How can success at Olympic level translate into increased participation?*
- *How can universities and public sports facilities respond to the needs of elite and recreational activity?*
