PROGRAMME

BALANCING THE NEEDS OF COMMUNITY,
ELITE AND UNIVERSITY FACILITIES

IAKS

International Association
for Sports and Leisure Facilities

The 1,5-day seminar will showcase recently developed facilities of regional and national significance in Edinburgh including the new Meadowbank Sports Centre and Oriam, Scotland's National Performance Centre for Sport. It will also explore the Scottish sporting environment and future issues affecting delivery of sports projects.

The event will focus on the design development and delivery of these two major sporting facilities as well exploring issues in managing the operation of these, and other sports facilities in Scotland, including the challenges of balancing the needs of community, elite sport and universities. It will be an opportunity to hear directly from the teams that have developed, delivered, and are operating these and other similar facilities.

As with all IAKS events, it provides a great networking opportunity for exchange of knowledge and ideas on the development of leading sports facilities.

HOSTS
