

COMPANY INDEX FROM A TO Z

In the Professionals & Profiles section, members of the IAKS can publish news on a half-page in three issues per year. In addition, they also appear with their logo and contact details in the address list and directory of trades in each issue. At the

same time, they also benefit from the improved linkage of "sb" with the IAKS website, for they also additionally receive an exclusive Premium entry in the online database.

DSGN CONCEPTS conceptualises and designs urban movement space. They understand public space as a stage for the creation of new lifestyle- and motion cultures. Their claim is it to develop unique sites with a maximum of function in addition to an individual design. Because of their long lasting connection to the skateboard culture and parkour scene they have an insight regarding the users' needs, and know how to translate these into a design from materiality to different shapes.
